

Grades on the First Exam.

Here is the information on the first test. 54 people took the exam. There was one perfect 100. There were two 39's which were the low scores. The average was 77.35 with a standard deviation of 14.41. The break down in the grades is in the table. The scores were higher than I expected and

Grade	Range	Number	Percent
A	90–100	10	18.51%
B	80–89	19	35.18%
C	70–79	8	14.81%
D	60–69	11	20.37%
F	0-59	6	11.11 %

most of you should be proud of your performance. However we are coming up to some harder material and so it is the wrong time to get over confident.

Warning to people who did badly.

If you were one of the people who got a D or an F, you should consider that you can withdraw up until Oct. 6 with no grade on you record. After Oct. 6 you can not withdraw without a WF going on your record. From what I have seen in past years I can say that people failing the first exam are usually better off dropping.
