

# Lab Syllabus for Calculus II (MATH 142)

Department of Mathematics

University of South Carolina

Spring 2005

## Lab Overview

The weekly lab meetings are an integral part of Calculus II (MATH 142). These labs are designed with (at least) two purposes:

- to provide an introduction to and instruction in the use of modern computer software (Maple)
- to provide hands-on activities that will further your understanding of the fundamental concepts of calculus.

The computer labs in the Department of Mathematics are part of the SAM (Science and Mathematics) network maintained by the College of Arts and Sciences (CAS). The majority of the funding for these labs, and other academic computing equipment (projectors, printers, ...) is from the Student Technology Fee. All of the computers in LC 102, 124, 303A, 401 and PSC 102 are part of the SAM network.

## Lab Materials

All lab materials can be downloaded from the WWW. The lab homepage is

<http://www.math.sc.edu/~meade/142L-S05/>.

To see the actual lab assignments, click on the [Lab Assignments](#) link. The [Maplets for Calculus](#) link points to a comprehensive list of maplets for use in calculus courses. *Hint: Add the lab homepage to your list of Favorites.*

## Access to Maple 9.5

Maple 9.5 is available on all computers in the academic computing labs maintained by the College of Arts and Sciences, in the open labs in the residence halls, and in the library. If you would like to have Maple installed on other University owned or leased computers, please discuss this with your TA.

Students in this course may download a full copy of Maple 9.5 for \$40 or receive the software on a CD for \$50. All purchases under this plan must be made online at <http://webstore.maplesoft.com/>. The promotion code is DM5458 and the course name is "D. Meade Math 142".

## Grading

Lab grades will be based on three (3) lab projects, three (3) hour-long quizzes, weekly mastery quizzes, and your attendance.

Projects	45 points
Hour Quizzes	45 points
Mastery Quizzes	30 points
<u>Attendance</u>	<u>10 points</u>
Total	130 points

Additional information about quizzes and projects will be distributed in advance of these assignments. Each lab missed will lower your attendance grade by one (1) point; see also the Attendance Policy.

## Attendance Policy

Attendance at every class and lab meeting is important – and expected. Students missing more than 10% of the class meetings (2 labs) can have their overall lab grade lowered.

*Do not forget to sign the attendance form each week!*

## Academic Honesty

Cheating and plagiarism will not be tolerated in the labs. You may discuss lab assignments with others, but do not copy work from another student, from a book, or from the Internet. Violations of this policy will be dealt with according to University guidelines.
