CURRICULUM VITAE

Peter J. Nyikos

Current Address:

Department of Mathematics
University of South Carolina   Citizenship: USA
Columbia, South Carolina 29208
(803) 777-5134

Education

University of Chicago	Mathematics	1973–74	Postdoctoral
Carnegie-Mellon University	Mathematics	1968–71	Ph.D.
Carnegie-Mellon University	Mathematics	1967–68	M.S.
Washington and Jefferson College	Mathematics	1963–67	B.A.

Employment History

1987–present	University of South Carolina	Professor
Fall 2001	University of Michigan, Ann Arbor	Visiting Professor
1979–1987	University of South Carolina	Associate Professor
1977–79	Institute for Medicine & Mathematics, Ohio University	Fellow
1976–79	Auburn University	Visiting Assist. Professor
9/78–12/78	Ohio University	Visiting Assist. Professor
1974–76	University of Illinois	Visiting Lecturer
1972–73	Biomedical Laboratory, Edgewood Arsenal, Md.	1st Lt./Mathematician
1971–72	MISD, Edgewood Arsenal, Md.	1st Lt./ADPS Officer
6/71–8/71	SUNY at Binghamton	Lecturer

Honors and Awards

Faculty Advisor of the Year, awarded April 2006.

This is a university-wide award, given each year to one faculty advisor, of a campus student organization.

Visiting Professor, Alfred Rényi Institute of the Hungarian Academy of Sciences, July 15 - August 15, 2003.

Sabbatical leave at University of Michigan, Ann Arbor, MI, Fall 2001

Sabbatical leave at University of Coloado, Boulder, CO, Fall 1993

Russell Research Award in Science and Engineering, 1990

[The University of South Carolina gives two Russell Awards in each academic year for excellence in research, one in the Humanities and one in Science and Engineering.]

SERC Research Fellowship at University of Oxford, England, 1986

Sabbatical Leave at Dartmouth College, Fall 1985

Outstanding Young Man, 1980 [a national distinction; nominated by Dr. James Durig, Dean of the College of Science and Mathematics, University of South Carolina]

Army Commendation Medal, 1973

NSF Postdoctoral Fellowship, 1971 (for 1973-1974)

Society of the Sigma Xi, 1971

NDEA Title IV Fellowship, Carnegie-Mellon University, 1967–1970

Summa Cum Laude, 1967

Phi Beta Kappa, 1967

Grants Funded:

NSF Grant DMS-9322613, June 1994 – May 1998 $84,002.

NSF Grant DMS-9209711, Aug 1992 – May 1995 $48,300

NSF Grant DMS-8901931, June 1989 - Nov 1991 $43,200

NSF Grant DMS-8703008, July 1987 - Dec 1989 $36,300

SERC Grant, January 1986 - June 1986   8000 pounds = approx $12,000

NSF Grant DMS-8503391, June 1985 - Dec 1987 $30,632

NSF Grant MCS-8301916, June 1983 - Nov 1985 $26,209

USC Research and Productive Scholarship grant, Summer 1980

NSF Grant MCS-8003004, June 1980 – November 1982

NSF Grant MCS-7813270, joint with Phillip Zenor of Auburn University, March 1979 – August 1980

Professional Activities

Chief organizer, Special Session in Topology and Set Theory, Summer Conference on Topology and its Applications, July 6-9, 2006 Statesboro, GA.

Co-organizer, Special Session in Set-theoretic topology, Summer Conference on Topology and its Applications, July, 2007 in Castellón, Spain

Co-organizer, Special Session in General/Set-theoretic topology, 42nd Spring Topology and Dynamical Systems Conference, Milwaukee, March 13-15, 2008

Chief organizer, Special Session in Set-theoretic topology, Sectional Meeting, American Mathematical Society, Huntsville, Alabama, October 24-26, 2008.

Co-organizer, Special Session in General/Set-theoretic topology, 44th Spring Topology and Dyanmical Systems Conference, Mississippi State University, Starkville, MS, March 18-20, 2010.

Co-organizer, Special Session in Topology and Set Theory, 26th Summer Conference on Topology and its Applications, New York, NY, July 26–29, 2011.

Chief organizer, Special Session in Set-theoretic topology, AMS Sectional Meeting, Wake Forest University, Winston-Salem, NC, September 25, 2011.

Editorial Board, Topology and its Applications, 1983–present

Judge, Regional Science Fair, Columbia, SC   March 2000, 2001, 2009.

Ciphering Judge, High School Mathematics Contest (sponsored by the University of South Carolina for high school students throughout the state)   December 1996, 1997, 1998, and January 2000, 2001, 2002, 2007, 2013, 2014, 2017.

Organizer, Special Session in Set-Theoretic Topology, AMS Regional meeting, Chattanooga, TN, October 1996

Editor, Problem Section, Topology Proceedings, 1976–1996

Co-organizer, Spring Topology Conference, Columbia, SC, March 1993

Reviewer, Mathematical Reviews, 1975–1993

Organizer, Regional Topology Conference, Columbia, SC, November 1991

Chief Organizer, Regional Topology Conference, Columbia, South Carolina, October 1984

Organizer, Special Session in General Topology, AMS Summer Meeting, Kalamazoo, August, 1975

Member, Mathematical Association of America, 2009

Member, American Mathematical Society, 1973–1983

Dissertations and theses directed:

Mabruk A. Sola, M.S. thesis, "The Stone-Čech compactification of the integers," June 1982

Stephen M. Eure, M.S. thesis, "The role of trees in topology," June 1985

Mabruk A. Sola, Ph.D. dissertation, "Roy's space Δ and its N-compactification," June 1987

Jamel Kammoun, M.S. thesis, "Normality in products," June 1988

Timothy A. Swartz, M.S. thesis, "Internal forcing axioms and the continuum," December 1989

Guanshen Ren, Ph.D. dissertation, "On Non-Archimedean normed spaces," July 1990

Jamel Kammoun, Ph.D. dissertation, "Products with a k-metrizable factor," July 1991

Leszek Piatkiewicz, Ph.D. dissertation, "Paracompact spaces in box product topology and the equivalence of some consequences of the proper forcing axiom," Aug. 1994

Peter von Rosenberg, Ph.D. dissertation, "Countable and finite migrant open covers," Aug. 1994

Rishipana Rehana Patel, M.S. thesis, "Continuous functions in the topology of pointwise convergence and classification of spaces," May 1995

László Zsilinszky, M.S. Thesis, "Polishness of the Wijsman hyperspace topology," Dec. 1996

Chunliang Pan, Ph.D. Dissertation, "Insetion properties of monotonically defined topological spaces," June 1997

László Zsilinszky, Ph.D. dissertation, "Topological Games and Hyperspace Topologies" May 1998

Edward E. Johnson, M.S. Thesis, "Classification and Completeness of Quasi-Metrizable Spaces," July 1998

Ellison-Anne Williams, M.S. Thesis, "A Forty-one year old problem: Does $M_3 \implies M_1$?," May 2001

Akira Iwasa, Ph.D. Dissertation, "Metrizability of trees," July 2001

Kathryn Lynn Basha, M.S. Thesis, "A reflexive Banach space with few operators via greedy minimal walks on countable ordinals," May 2009.

Heather Cheatum, Ph.D. Dissertation, "D-spaces and L-special trees," August 2011.

Jeffrey Hankins, Ph.D. Dissertation, "The uniform box product of some spaces with one non-isolated point," May 2012.

Refereed Publications

In Print:

1. "Not every 0-dimensional realcompact space is N-compact", Bulletin AMS 77 (1971) 392-396.

2. (with J.J. Schäffer) "Flat spaces of continuous functions", Studia Math. 42 (1972), 221–229.

3. "Strongly zero-dimensional spaces", pp. 341–344 in: General Topology and its Relations to Modern Analysis and Algebra III Academia, Prague, 1972.

4. "Prabir Roy's space Δ is not N-compact", Gen. Top. Appl. 3 (1973) 197-210.

5. "The Sorgenfrey plane in dimension theory", Fund. Math 79 (1973) 131- 139.

6. "The p-adic topologies and their generalizations", pp. 517-525 in: Topics in Topology, Colloquia Mathematica Societatis János Bolyai V. 8 (1972) Keszthely (Hungary). Published in 1974.

7. "The p-adic topology on abelian groups", pp. 354-367 in: TOPO 72 General Topology and its Applications, Lecture Notes in Mathematics No. 378, Springer-Verlag, 1974.

8. (H. Champion, W. Sacco, W. Long, H. Smith, P. Nyikos, R. A. Cowley, W. Gill) "Indications for early haemodialysis in multiple trauma", The Lancet 7867 (June 8, 1974) 1125–7.

9. (with H. C. Reichel) "Uniforme Raume mit geodneter Basis I", Monatshefte Math 79 (1975) 123-130.

10. (with H.C. Reichel) "On the structure of zero-dimensional spaces", Indag. Math 37 (1975) 120-136.

11. (with H. C. Reichel) "Topologically orderable groups", Gen. Top. Appl. 5 (1975) 195-204.

12. "Some surprising base properties in topology", pp. 427-450 in: Studies in Topology, Stavrakas and Allen ed., Academic Press, New York, 1975

Refereed Publications (continued)

13. (with H. C. Reichel) "On uniform spaces with linearly ordered bases II", Fund. Math. 93 (1976) 1-10.

14. "A survey of zero-dimensional spaces", pp. 87-114 in: Topology: Proceedings of the Memphis State University Conference, Franklin and Thomas ed., Vol. 24 of Lecture Notes in Pure and Applied Mathematics, Marcel Dekker, New York, 1976.

15. "Epireflective categories of Hausdorff spaces", pp. 452-479 in: Categorical Topology, Lecture Notes in Mathematics No. 540, Springer- Verlag, 1976.

16. (with W. F. Lindgren) "Spaces with bases satisfying certain order and intersection properties", Pac. J. Math. 66 (1976) 455-476.

17. "Countable small rank and cardinal invariants", pp. 344-347 in: General Topology and its Relations to Modern Analysis and Algebra IV, Part B. Society of Czech. Math. and Phys., Prague, 1977.

18. "Inverse preservation of small inductive dimension", Topology Proceedings 1 (1976) 63–66. Published in 1978.

19. (with G. Gruenhage) "Spaces with bases of countable rank", Gen. Top. Appl. 8 (1978) 233–257.

Papers Presented at Professional Meetings

Invited Conference Addresses:

1. "A survey of zero-dimensional spaces," Annual Topology Conference, Memphis, March 1975 (1 hour)

2. "Epireflective categories of Hausdorff spaces," Categorical Topology Conference, Mannheim, BRD, July 1975 (1 hour)

3. "Compact hereditarily normal spaces," Regional Topology Conference, Columbia, SC, October 1977 (1 hour)

4. "A provisional solution to the normal Moore space problem," Annual Topology Conference, Norman, Oklahoma, March 1978 (1 hour)

5. "Large cardinals and the normal Moore space problem," Third Great Lakes Topology Conference, SUNY at Buffalo, April 1978 (1 hour)

6. "Ideas behind nearness spaces," Regional Topology Conference, Fairfax, Virginia, June 1978 (20 min.)

7. "Normal Moore Spaces," International Colloquium in Topology, Budapest, August 1978 (30 min.)

8. "Cardinal invariants on Boolean algebras," Tagung über Boolesche algebren, Oberwolfach, BRD, January 1979 (1 hour)

9. "F. Burton Jones's contributions to the normal Moore space problem," Regional Topology Conference, Greensboro, NC, October 1979 (1 hour)

l0. "Axioms, theorems, and problems related to the Jones lemma," Conference on General Topology, Set Theory, and Modern Analysis, Riverside, CA, May 1980 (30 min.)

Invited Conference Addresses (continued):

11. "Countably compact noncompact spaces," Tagung über Mengentheorie, Oberwolfach, BRD, January 1981 (1 hour)

12. "Nonmetrizable manifolds," Fifth International Topological Symposium, Prague, Czechoslovakia, August 1981 (30 min.)

13. "Applications of forcing to topology," AMS Summer Conference in Set Theory, Boulder, Colorado, June 1983 (20 min.)

14. "Recent results in set-theoretic topology," International Colloquium in Topology, Eger, Hungary, August 1983 (30 min.)

15.& 16. "Convergence of diagonal sequences," and "Fiber bundles over the long line," Semester in Topology, Warsaw, June 1984 (two l-hour talks)

17. "Various smoothings of the long line and their tangent bundles," International Conference in Topology, Trieste, Italy, June 1986 (40 min.)

18. "Progress in countably compact spaces," Sixth International Topological Symposium, Prague, August 1986 (30 min.)

19. "Recent progress in countably compact spaces," Regional topology conference, Duke University, October 1986 (1 hour)

20. "Topological groups and vector spaces defined with the help of a single filter,"Third New York Conference on Limits, June 1987 (1 hr.)

21. "Classes of compact sequential spaces," STACY conference, York University, Downsview, Ontario, August 1987 (45 min.)

22. "The tangent bundle as a counterexample," International topology conference, Baku, Azerbaijan SSR, October 1987 (30 min.)

23. "Countably compact, countably tight spaces," Symposium in General topology, Tsukuba, Japan, June, 1988 (1 hour plenary address)

24. "Hereditary normality in compact spaces," Spring topology conference, Knoxville, March, 1989 (30 min.)

25. "Fiber bundles over the long line," Mini-conference in topology, Miami University, Oxford, Ohio, April, 1989 (1 hr.)

26. "Hereditary normality versus countable tightness in compact spaces," Topology conference, University of Oxford, England, June 1989 (30 min.)

27. "Countably metacompact spaces in the constructible universe," János Bólyai Topology Conference, Pécs, Hungary, August 1989 (45 min. plenary address)

28. "Migrant sets," Regional topology conference, Duke University, Oct. 1989 (30 min.)

29. "Countable compactness and hereditary normality," Spring Topology Conference, Sacramento, April 1991 (30 min.)

30. "Two large-cardinal results relevant to the philosophy of mathematics," NESTS, Smith College, Amherst, Mass., April 1991 (1hr.)

31. "Mary Ellen Rudin's research on nonmetrizable manifolds," Summer Conference on General Topology and Applications, Madison, Wis. June, 1991 (25 min. plenary address)

Invited Conference Addresses (continued):

32. "Topological groups and vector spaces defined with the help of a single filter," Conference on Uniform Topology, Bern, Switzerland, August 1991. (1 hr. plenary address)

33. "Countable compactness and hereditary normality," Seventh Prague International Topological Symposium, August 1991. (30 min.)

34. "Some Moore pseudocompactifications," Regional topology conference, Kansas State University, Manhattan, Kansas, January 3-6, 1992.

35. "Axiomatic fine-tuning," Symposium in Topology, Szekszard, Hungary, Aug. 1993 (1 hr. plenary address)

36. "Trees and their topologies," Tennessee State University Summer Conference, July, 1996 Nashville (1 hr. plenary address)

37. "Metrizability and other special properties on trees," International Topology Conference, Morelia, Mexico, March, 1997, 30 min.

38. "Applications of totally proper forcing," Colloquium on Topology, Gyula, Hungary Aug. 10–15, 1998, (50 min.)

39–41 "Ingredients for a renaissance in set-theoretic topology?"; "The status of some Dowker spaces"; and "Applications of a saturation axiom of Shelah," Workshop in Set-Theoretic Topology, Budapest, Hungary, July 1999 (all 1-hour lectures)

42. "New techniques in set-theoretic topology," Spring Topology Conference, San Antonio, Texas, March 2000. (30 min.)

43. "Hereditary normality and metrization theory of manifolds," Summer Topology Conference, Miami University, Oxford, Ohio, Aug. 2000, 30 min.

44. "New axioms and techniques in set-theoretic topology," 9th Prague Topological Symposium, Prague, Czech Republic, August 19-25, 2001, 30 min.

45. "Classic Problems - 25 years later," International Conference on Topology and its Applications, Shimame University, Matsue, Japan, June 24-28, 2002, 30 min.

46. "New Axioms and Techniques in Set-Theoretic Topology," University of Auckland, New Zealand, July 1-4, 2002. 1 hr. plenary address.

47. "Balogh's 'lost' theorems on paracompactness in locally compact spaces," Zoltan Balogh Memorial Topology Conference, Miami University, Oxford, Ohio Nov. 15-16, 2002, 30 min.

48. "Diagonalizable spaces," 30 minute talk in Special Session on Topological Algebra and C_p, Conference in honor of A.V. Arhangel'skii, Brooklyn College of CUNY June 29 -July 3, 2003.

49. "Three problems in set theory with topological applications," 10th Southeastern Logic Conference, University of Florida, Gainesville, Florida, March 6, 2004, 30 min.

50. "Recent research on the compact-open topology and modifications," 2nd joint Japan-Mexico Topology Conference, Oaxaca, Mexico, December 6-10, 2004, 30 min.

Invited Conference Addresses (continued):

51. "Generalized Kurepa and MAD families and topology," 6th Iberoamerican Conference on Topology and its Applications, Puebla, Mexico, July 4-7, 2005, 30 min.

52. " Special axioms applied to metrization theory of manifolds," The Forty-First Spring Topology and Dynamics Conference, Rolla, MO, March 29–31, 2007, 30 min. address televised on the Internet.

53. "The Peano problem, related problems and solutions," 11th Galway Topology Colloquium, National University of Ireland, Galway, June 5-6, 2008, 1 hour.

54 and 55. "Workshop in Convergence," Advances in Set-Theoretic Topology conference, Erice, Sicily, June 9-19, 2008, two one-hour lectures.

56. "Tutorial in Set-Theoretic Topology," BLAST 2008, Denver, August 6-10, 2008. one 2-hour lecture

57. and 58. "Elbow room in Banach spaces, with applications to Erdös space," and "Some topological questions and results on trees and D-spaces," 13th Galway Topology Colloquium, University of Birmingham, Birmingham, UK, July 13-15, 2010. Two one-hour lectures.

59. "Screenable Dowker spaces," Pitt Topology Conference, University of Pittsburgh, April 9, 2011. (1 hour)

60. "Convergent sequences in countably compact spaces," Topology/Geometry+Foundations Workshop, University of Pittsburgh, April 21, 2012.(1 hour)

61. "Fréchet uniform box products," Brazilian Conference on General Topology and Set Theory - STW 2013, Sao Sebastiao, Brazil, August 12–16 2013

62. "Classic Problems III," Conference in topology in honor of Gary Gruenhage's 70th birthday, Auburn University, Oct. 21, 2017

Invited talks at AMS Special Sessions:

1. "Base conditions, generalized metric spaces, and metrization," AMS Regional Meeting, Special Session in Topology, Blacksburg, Virginia, November 1975

2. "On compact hereditarily normal spaces," AMS Regional Meeting, Special Session on General Topology, Charleston, November 1978

3. "The problem of obtaining a separable, countably compact, noncompact manifold," AMS Regional Meeting, Special Session on Set-theoretic Topology, Pittsburgh, PA, May 1981

4. "Countably compact spaces, the core model, and Chang Conjecture variants," Special session on set theory, AMS regional meeting, Lawrence, Kansas, October 1988.

5. "Normal thin-tall spaces," Special session in set-theoretic topology, Regional AMS Meeting, Dayton, October, 1992.

6. "The history of the normal Moore space problem," Annual AMS Meeting, San Antonio, Texas, January, 1993.

Invited talks at AMS Special Sessions (continued):

7. "Compact Hausdorff spaces with moderately large families of convergent sequences," AMS Regional Meeting, Richmond, VA, November 12, 1994

8. "Tubularity and normality in products," AMS Regional Meeting, Greensboro, NC, Nov. 18. 1995

9. "Totally Proper Forcing," Special Session in Set-Theoretic Topology, AMS Regional Meeting, Atlanta, GA, October 1997

10. "Metrizability of completely normal, hereditarily cwH manifolds", AMS Regional Meeting, Winston-Salem, NC, Oct. 9, 1998

11. "Trichotomies and tetrachotomies in locally compact spaces," AMS Regional Meeting, Charlotte, NC October 1999.

12. "Hereditarily normal Dowker spaces," AMS Regional Meeting, Toronto, Ontario, Canada, September 23, 2000.

13. "Axiom F: its status and uses," Special Session in general and set-theoretic topology, AMS Regional Meeting, University of Kansas, Lawrence, Kansas, March 30-31, 2001.

14. "Hereditarily screenable normal, non-paracompact spaces" AMS Sectional Meeting, Georgia Southern University, Statesboro, GA, March 13, 2011 Special Session on Set-Theoretic Topology, 10:00 am

15. "Utterly normal spaces," AMS Sectional Meeting, Wake Forest University, Winston-Salem, NC, September 25, 2011, Special Session on Set-Theoretic Topology, 9:00 am

16. "The structure of locally compact, locally connected T_5 spaces under PFA(S)[S]," AMS Sectional Meeting, November 8-9, 2014, University of North Carolina at Greensboro, Greensboro, NC.

17. "Locally compact spaces of countable extent," AMS Sectional Meeting, November 12-13, 2016, NC State University, Raleigh, North Carolina.

Other Conference Addresses:

1. "Not every zero-dimensional realcompact space is N-compact," Pittsburgh International Topology Conference, June 1970

2. "Strongly zero-dimensional spaces" Third Prague International Topological Symposium, August 1971

3. "The p-adic topology on abelian groups," Pittsburgh International topology Conference, December 1972

4. "Non-Archimedean spaces," Annual Topology Conference, Blacksburg, March 1973

5. "Some surprising base properties in topology," Annual Topology Conference, Charlotte, March 1974

6. "On the product of suborderable spaces," AMS Regional Meeting, DeKalb, Illinois, May 1974

Other Conference Addresses (continued):

7. "Not every scattered space has a scattered compactification," AMS Regional Meeting, Middletown, Connecticut, October 1974

8. "On the product of metacompact spaces," AMS Annual Meeting, San Antonio, Texas, January 1976

9. "Inverse preservation of small inductive dimension," Annual Topology Conference, Auburn, March 1976

10. "Some surprising base properties in topology II," Regional Conference in Set-Theoretic Topology, Athens, Ohio, May 1976

11. "Countable small rank and cardinal invariants," Fourth Prague Topological Symposium, August 1976

12. "Length, width, and breadth in Boolean algebras," AMS Annual Meeting, St. Louis, Missouri, January 1977

13. "Covering properties on scattered spaces," Annual Topology Conference, LSU, March 1977

14. "A compact nonmetrizable space X such that X^2 is completely normal," AMS Annual Meeting, Atlanta, Georgia, January 1978

15. "Weakly first countable topological groups are metrizable," AMS Regional Meeting, Syracuse, October 1978

16. "The tangent bundle on the long line and other strange 2-manifolds," Annual Topology Conference, Athens, Ohio, March 1979

17. "A topological test space for many set-theoretic axioms," Moscow International Topology Conference, USSR, June 1979

18. "On the number of Hausdorff manifolds," AMS Regional Meeting, Birmingham, November 1979

19. "A Dowker manifold assuming $\diamondsuit^*$," AMS Annual Meeting, San Antonio, January 1980

20. "Tunnels, tight gaps, and countably compact extensions of ω," Annual Topology Conference, Birmingham, March 1980

21. "Problems on countably compact noncompact spaces," SETOP, University of Toronto, Mississauga, Ontario, July 1980

22. "Two problems concerning first countable countably compact spaces," Regional Topology Conference, Appalachian State University, Boone, North Carolina, October 1980

23. "The problem of obtaining arbitrarily large first countable, locally compact, countably compact spaces," Annual Topology Conference, Blacksburg, Virginia, March 1981

24. "Mappings into linearly ordered spaces with nowhere dense fibers," AMS Annual Meeting, Cincinnati, January 1982

25. "When is the product of sequentially compact spaces countably compact?" Annual Topology Conference, US Naval Academy, Annapolis, MD, March 1982

26. "On the product of sequentially compact spaces," AMS Summer Meeting, Toronto, August 1982 (presented by S. W. Williams)

Other Conference Addresses (continued):

27. "Fiber bundles over the long line," Regional Topology Conference, George Mason University, Fairfax, Virginia, October 1982

28. "Simple P-points," Annual Topology Conference, Houston, Texas, March 1983

29. "Products of sequentially compact spaces," Jacob Kofner Memorial Topology Conference, George Mason University, Fairfax, Virginia, October 1983

30. "Countably paracompact spaces and PMEA," Annual Topology Conference, Auburn, Alabama, March 1984

31. "Recent advances in set-theoretic topology," Regional Topology Conference, Columbia, SC, October 1984

32. "Some problems in set theory," Southeastern Conference in Set Theory, University of Florida, February 1985

33. "Various smoothings of the long line and their tangent bundles I: Basic ZFC results," AMS Annual Meeting, San Antonio, January 1987

34. "Some results in set-theoretic topology, obtained within the last nine years," Spring Topology Conference, University of Alabama at Birmingham, March 1987

35. "Net convergence under PFA," Regional Topology Conference, Duke University, October 1987

36. "Various smoothings of the long line and their tangent bundles II: countable metacompactness and sections," AMS Annual Meeting, Atlanta, January, 1988.

37. "ω_1-transitive groups need not be ω-transitive," Southeastern Logic Conference, Colubmia, SC, March, 1988.

38. "Notes on the Scarborough-Stone problem," Spring Topology Conference, Gainesville, FL, April, 1988.

39. "Weakly compact sets in Banach spaces," Spring Topology Conference, San Marcos, Texas, April, 1990.

40. "Bisequentiality in weakly compact subsets of Banach spaces," Summer Conference in General Topology and its Applications, Long Island University, June, 1990.

41. "Compact Hausdorff spaces with only trivial convergent sequences," Regional Topology Conference, North Carolina State University, Raleigh, October 6, 1990.

42. "Some Moore pseudocompactifications," Regional Topology Conference, University of South Carolina, Columbia, November, 1991.

43. "Properties of Eberlein compacta," Spring Topology Conference, Charlotte, NC, April 2, 1992.

44. "Biradiality in weakly compact subsets of Banach spaces," Summer Topology conference, Flushing, NY, June 18, 1992.

45. "Countable dense subsets of product spaces," Annual Spring Topology Conference, Auburn University, AL, April, 1994.

46. "A versatile Hausdorff gap," Annual Spring Topology Conference, Newark, Delaware, April, 1995

Other Conference Addresses (continued):

47. "Tubularity in products," Annual Summer Topology Conference, Portland, Maine, August, 1995

48. "Topologies on trees," Annual Spring Topology Conference, Muncie, Indiana, March, 1996.

49. "Topological properties of trees," Eighth Prague International Topological Symposium, Aug. 1996.

50. "Separable normal nonmetrizable manifolds," Summer Topology Conference, Nipissing U., North Bay, Ontario, Aug. 1997.

51. "New axioms in set theory and their applications," Annual Spring Topology Conference, Fairfax, VA, April, 1998.

52. "Alignments and the theory of locally compact spaces," Spring Topology Conference, Salt Lake City, March 1999.

53. "Complete normality and metrizability in manifolds," 44th Annual Meeting of the Australian Mathematical Society, Brisbane, July 2000.

54. "Linearly stratifiable spaces: some open problems," Nordic Conference on Topology and its Applications (NORDTOP2001) Nordfjordeid, Norway Aug. 6-10, 2001.

55. "Updates on a 1903 paper by G. H. Hardy," special conference in honor of the 60th birthdays of David Gauld and Ivan Reilly, University of Auckland, New Zealand, July 5, 2002, 30 min.

56. "Hereditarily strongly cwH and separation axioms," Special Session in General Topology, Spring Topology and Dynamical Systems Conference, Lubbock, Texas, March 20-22, 2003.

57. "A gamma-set invariance," Special Session in Topological Algebras, Spring Topology and Dynamical Systems Conference, Lubbock, Texas, March 20-22, 2003.

58. "Salvaging a metrizability of manifolds theorem," Special Session on Set-Theoretic Topology, 2003 Summer Conference on Topology and its Applications, Howard University, Washington, DC July 9-12, 2003.

59. "2-to-1 closed preimages of ω_1," Colloquium on General and Set-Theoretic Topology, Budapest, Aug 8-13, 2004.

60. "Elbow room in Banach Spaces," Special Session in General Topology, Spring Topology and Dynamical Systems Conference, Birmingham, Alabama, March 25-27, 2004.

61. "A problem in theoretical computer science about $C_s(\mathbb{P}, \mathbb{N})$." Special Session in General/Set-theoretic Topology, Spring Topology and Dynamical Systems Conference, Rome, Georgia, March 17-19, 2005.

62. "Sequential compactness (and lack thereof) in topological spaces," Spring Topology and Dynamics Conference, Greensboro, NC, March 23–25, 2006.

63. "Subsequentiality and countable compactness," 21st Summer Conference on Topology and its Applications, Georgia Southern University, Statesboro, GA, July 6–9, 2006.

Other Conference Addresses (continued):

64. "Monotone normal, ultranormal spaces," 10th Prague Topological Symposium, Prague, Czech Republic, August 13-19, 2006

65. "Ostaszewski Scarborough-Stone spaces in forcing extensions," 22nd Summer Conference on Topology and Its Applications, Castellón, Spain, July 24-27, 2007

66. "Discontinuities and smooth curves in n-space," Special Session in General/Set-theoretic topology, 42nd Spring Topology and Dynamical Systems Conference, Milwaukee, March 13-15, 2008.

67. "D-spaces, trees, and a ZFC solution to Problem 342 in OPIT II," Special Session in General/Set-theoretic topology, 43rd Spring Topology and Dynamical Systems Conference, Gainesville, FL, March 7-11, 2009.

68. "Cofinal Kurepa Families," BLAST09, Las Cruces, NM, August 7-14, 2009.

69. "D-spaces and trees," 44th Spring Topology and Dyanmical Systems Conference, Mississippi State University, Starkville, MS, March 18-20, 2010.

70. "Productivity of anti-ponderous spaces," University of Texas at Tyler, Tyler, TX, March 17-19, 2011.

71. "Screenable anti-Dowker spaces," 26th Summer Conference on Topology and its Applications, New York, NY, July 26–29, 2011.

72. "Three closely related topological games," The 2012 Ibero-American Conference on Topology and Its Applications, Guanajuato, Mexico, April 10–14, 2012.

73. "The main topological properties of some uniform box products," 27th Summer Conference on Topology and its Applications, Mankato, Minnesota, July 25–28, 2012.

74. "Collectionwise normality of some spaces with the uniform box topology," 47th Spring Topology and Dynamics Conference, March 23-25, 2013, Central Connecticut State University, New Britain, CT

75. "The structure theory of a very general class of normal, locally compact, locally connected spaces under the PFA," 48th Spring Topology and Dynamics Conference March 13-15, 2014, University of Richmond Richmond, VA

76. "The structure of hereditarily normal, locally compact, locally connected spaces under strong axioms," 2014 International Conference on Topology and its Applications, July 3-7, 2014, Nafpaktos, Greece.

77. "Applications of Mary Ellen Rudin's solution of Nikiel's Conjecture to utter normality," 30th Summer Topology Conference, June 23-26, 2015, National University of Ireland, Galway, Ireland.

78. "Large cardinals, small uncountable cardinals, and locally compact spaces of countable extent," Novi Sad Conference in Set Theory and General Topology, Serbia, June 20-23, 2016, Novi Sad, Serbia.

79. "Quasi-perfect images of stationary, co-stationary subsets of ω_1," TOPOSYM16, July 25-29, 2016, Prague, Czech Republic.

80. "The many worlds of set-theoretic topology," 31st Summer Conference on Topology and its Applications, August 2-5, Leicester, England.

81. "'Special ultrafilters and cofinal subsets of $({}^\omega\omega, <^*)$," 6ESTC (6th European Set Theory Conference), July 6, 2017, Renyi Institute of the Hungarian Academy of Sciences, Budapest, Hungary.

Other Conference Addresses (continued):

82. "Butterfly points," 52nd Spring Topology and Dynamical Systems Conference, March 14-17, 2018 Auburn University, Auburn AL

83. "Strongly almost Dowker spaces," 33rd Summer Conference on Topology and its Applications, July 17-20, 2018 Western Kentucky University Bowling Green, Kentucky,

84. "The Normal Reed Space Problem" [20 minutes] 2019 STDC [Spring Topology and Dynamics Conference] March 14-16, 2019 University of Alabama at Birmingham Birmingham, Alabama

85. "The Tukey order on graphs," 2019 STDC, Birmingham, Alabama

Colloquia and Seminars

Colloquium Addresses: [All invited lectures, roughly one hour in length]

1. "N-compact spaces" SUNY at Buffalo, July, 1970

2. "N-compact spaces" Carnegie-Mellon University and University of Pittsburgh, May 1971

3. "The p-adic topology," George Mason University, February, 1973

4. "Measure, integration, and probability: a unified approach" U.S. Naval Postgraduate School, August 1973

5. "The protean class of ω_μ-metrizable spaces", Washington University, April 1974

6. "Zero-dimensional and scattered spaces", Ohio University, June 1975

7. & 8. "Estimating the number of antibody bounding sites", "Shock trauma", Ohio University, January 1976

9. "Applications of mathematics to medicine", Auburn University, March 1976

10. "Applications of mathematics to medicine", University of Alabama, March 1976

11. "Symmetrizable spaces", SUNY at Buffalo, August 1977

12. "Recent set-theoretic consistency results in topology", University of Illinois, Urbana, May 1978

13. "The current status of the normal Moore space problem", University of Wisconsin, Madison, May 1978

14. "The set-theoretic independence of some old conjectures in topology", Washington University, November 1978

15. "Cardinal invariants in Boolean algebras", Free University of Netherlands, Amsterdam, February 1979

16. "Recent advances in set-theoretic topology", Oxford University, Oxford, England, February, 1979

17. "Recent advances in set-theoretic topology", University of South Carolina, March 1979

18. "Recent advances in set-theoretic topology", SUNY at Buffalo, April, 1979

19. "Recent advances in set-theoretic topology", University of Vienna, Vienna Austria, January 1981

20. "The Stone-Cech Compactification of the Integers", U. Autonoma Metropolitana, Mexico DF, July 1982

Colloquium Addresses (continued):

21. "Products of sequentially compact spaces, U. Autonoma Metropolitana, Mexico DF, July 1982

22. "The theory of nonmetrizable manifolds", U. Nacional Autonoma de Mexico, Mexico DF, July 1982

23. "Recent developments in set-theoretic topology", U. Nacional Autonoma de Mexico DF, July 1982

24. "Sequences of integers and topology", U. Autonoma Metropolitana, Mexico DF, July 1982

25. "Nonmetrizable manifolds", University of South Carolina, Nov. 1982

26. "Convergence of diagonal sequences" (in Hungarian) University of Debrecen, Hungary, June 1984

27–32. "Approximate extension of continuous functions", University of Queensland, Brisbane, Australia, June 1985; also at LaTrobe University, Melbourne, June 1985; also at Wesleyan University, Middletown, Conn., Oct. 1985; also at Dartmouth College, Hanover, NH, Nov. 1985; also at SUNY at Binghamton, Dec. 1985; also at University of London, Feb. 1986.

33. "Hypergraphs with finitely many isomorphism subtypes", U. of Kansas, August 1985.

34. "Products of sequentially compact spaces", University of Connecticut, Storrs, Oct. 1985.

35. "Set-theoretic consistency results on countably tight spaces," Ohio University, Athens, Ohio, Feb. 1988.

36–40. "Various smoothings of the long line and their tangent bundles," York University, Toronto, March, 1988; also at Tsukuba University, June, 1988; also at Osaka Kiyoiku University, June, 1988; also at Bundoora University, Melbourne, Australia, July, 1988; also at Melbourne University, July, 1988.

41. "Approximate extension of continuous functions," Shizuoka University, June, 1988.

42. & 43. "Countable tightness and proper forcing," Kobe University, Japan, June, 1988; also at the University of New England, Armidale, NSW, Australia.

44. "Classes of Fréchet-Urysohn spaces," Ehime University, Matsuyama, Japan, June, 1988.

45. & 46. "Various smoothings of the long line and their tangent bundles," University of New England, Armidale, Australia, February 1989; also at the University of Auckland, New Zealand, February 1989.

47. "Hypergraphs with finitely many isomorphism subtypes, Arizona State University, March, 1989.

48. "Countable tightness and proper forcing," Miami University, Oxford, Ohio, April, 1989.

49. "Topological indicators for sudden cardiac arrest," University of Wollongong, July, 1992.

50. "Countably compact spaces and the Proper Forcing Axiom, University of Wollongong, July, 1992.

Colloquium Addresses (continued):

51. "Migrant sets in topological spaces," Kansas State University, October, 1994.

52. "Hilbert's first problem and the foundations of mathematics," University of Auckland, May, 2000.

53. "The Continuum Hypothesis: history and state of the art," University of North Carolina at Greensboro, Greensboro, NC January, 2001.

54. "What does 'random' mean?" University of Auckland, June, 2004.

55. "Elbow room in Banach spaces," Georgia Southern University, Statesboro, GA March 11, 2005

56. "Antidiamond and antiPFA axioms," Gainesville, FL April 13, 2007

57. "The Hahn-Mazurkiewicz theorem and its elegant generalization," Auburn University, Auburn, AL, August 28, 2015

58. Ohio University, Athens, Ohio

59. "Discontinuities and smooth curves in n-space," Auckland Technical University, Auckland, New Zealand, March 16, 2016.

60. "Elbow room in normed vector Spaces," LaTrobe University, Melbourne, Australia, March 24, 2016

61. "A forcing built around a coherent Souslin tree and its uses for normal, locally compact spaces," Kurt Gödel Research Institute, Vienna, Austria, June 28, 2016

62. "Elbow room in Banach spaces," Opole University, Opole, Poland, July 7, 2016

63. "Cardinalities of locally compact spaces," Kurt Gödel Research Institute, Vienna, Austria, June 28, 2016

64. " A maximum cardinality problem on countably compact spaces, Kurt Gödel Research Institute, Vienna, Austria, June 2017

Seminars Organized and Led:

1. Seminar in Algebra and Topology, Carnegie-Mellon University, 1970-71

2. Seminar in Topology, Auburn University, Winter Quarter 1979

3. Seminar in Set Theory, Auburn University, Winter Quarter 1979

4. Seminar in Differential Geometry, Auburn University, Winter Quarter, 1979

5. Seminar in Set theory, Ohio University, Spring 1979

6. Seminar in Topology, University of South Carolina, 1979-80, 1980-81, 1981-82, 1982-83, Spring and Fall 1984, Spring 1985, 1987-88, 1989- 90, Spring 1992, Spring 1993, Spring 1994.

7. Seminar in Set Theory and Logic, University of South Carolina, Spring 1980, Spring 1985

8. Graduate Seminar in Set-Theoretic Topology, University of South Carolina, 1990-91 and 1995.

9. Seminar in Set Theory and Topology, University of South Carolina, 1996-97, 1997-98, 1998-99, 1999-2000 and 2000-1.

10. Seminar in Logic, University of Michigan, Fall 2001.

11. Seminar in Logic and Set Theory, University of South Carolina, Spring 2002.

12. Seminar in Set Theory and Logic, University of South Carolina, 2006.

13. Seminar in Topology and Set Theory, University of South Carolina, Fall 2007.

Seminars Participated Regularly In:

1. Seminar in Topology, University of Illinois, Urbana 1974-75, 1975-76

2. Seminar in Topology, Auburn University, 1976-77, 1977-78

3. Seminar in Differential Geometry, Auburn University, 1976-77

4. Seminar in Set Theory, Dartmouth College, Fall 1985

5. Seminar in Topology, University of Oxford, Winter and Spring 1986

6. Seminar in Logic, University of South Carolina, 1987-88

7. Seminar in Set Theory, University of Colorado, Boulder, Fall 1993

8. Seminar in Set-theoretic Topology, variously held at Charlotte, Greensboro, and Pembroke, North Carolina, and Columbia, South Carolina, 2002-present [held about once every three Saturdays, on the average].

Special Talks:

1. Seminar in Topology, University of Wisconsin, August 1985

2. Combinatorial Seminar, University of Wisconsin, August 1985

3. NESTS (New England Set Theory Seminar) October 1985

4. NESTS, Smith College, Northampton, MA, November 1985

5. Seminar in Topology, Cambridge University, April 1986

6. Seminar in Logic, University of Oxford, April 1986

7. Seminar in Topology, Australian National University, February 1989

8–17. Seminar series in set-theoretic topology (9 one-hr seminars) Ohio University, Athens, Ohio, May 1989.

18. Seminar in Combinatorics, Ohio State University, Columbus, Ohio, May, 1989.

19. Seminar in Topology, University of Pittsburgh, May 3, 1990.

20. Seminar in Topology, University of Pittsburgh, Sept. 14, 1990.

21–27. Seminar series in set-theoretic topology (6 one-hour seminars) University of Auckland, Auckland, NZ, May 1997.

28. "Recent advances in set-theoretic topology," invited 1-hour lecture to complete advanced undergraduate course in topology at the University of Vienna, July 1, 1999.

29–41. Seminar series in set theory and topology, 12 one-hour seminars, University of Auckland, Auckland, NZ, May-June 2000.

42. "A weakening of AC due to G.H. Hardy," University of North Carolina at Greensboro, March 2, 2002.

43. "Updates on a 1903 theorem of G.H. Hardy," Fields Institute, Toronto, June 19, 2002.

44–47. Seminar series in set theory and topology, 3 one-hour seminars, University of Auckland, Auckland, NZ, July 2002.

48. "Hereditarily normal manifolds," Fields Institute, Toronto, July 17, 2002.

Special Talks (continued):

49–51. Seminar series in set-theoretic topology, 3 one-hour seminars, Hungarian Academy of Sciences, July-August 2003.

52–55. Seminar series in set theory and topology, 4 one-hour seminars, University of Auckland, Auckland, NZ, July 2004.

56. "Elbow room in Banach spaces," Analysis Seminar, University of South Carolina, February 27, 2004.

57. "An ordering of simple graphs and other relational systems," Combinatorics Seminar, University of South Carolina, February 2, 2005.

58–63. Seminar series in set theory and topology, 6 one-hour seminars, University of Auckland, Auckland, NZ, May-June 2006.

64–65. "Antidiamond and antiPFA axioms and their applications," and "Forcing applied to the construction of perfectly normal spaces," one-hour seminars in set-theoretic topology, Hungarian Academy of Sciences, May 2007.

66. "Large cardinals and topological applications," Carnegie-Mellon University, September 9, 2008.

67. "D-spaces," University of Pittsburgh, September 10, 2008.

68. "Large cardinals and general topology," Pennsylvania State University, September 12, 2008.

69. "Kurepa families and Boolean Algebras," University of Colorado, Boulder, November 2008.

70. "The Tukey order on finite graphs," University of Denver, November 2008.

71–73. Seminar series in set-theoretic topology, 3 one-hour seminars, University of Auckland, Auckland, NZ, December 2008.

74. "The Tukey order on finite graphs," University of Auckland, December 2008.

75. "Discontinuities and smooth curves in n-space," Carolina Math Seminar, Benedict College, Feb. 11, 2011. Given to a general audience and available on YouTube:
http://www.youtube.com/watch?v=-GU62j-VD_I&feature=related

76–78. Seminar series in set-theoretic topology, University of Auckland, Auckland, NZ, December 2012, 3 one-hour seminars:
"The uniform box product Π,"
"Countable compactness and convergent sequences,"
"Three closely related topological games."

79. University of Pittsburgh, February 12, 2015

80, 81. University of Oxford, England June 17, 2015 and August 14, 2015

82. Auburn University, Auburn, Alabama August 31, 2015

83. Fields Institute, University of Toronto, September 18, 2015

84. University of Auckland, New Zealand, March 17, 2016

85. University of Birmingham, Birmingham, England 2016
