Grades on the Second Exam.

Here is the information on the second test. 51 people took the exam. Four people got 100's. The low score was 16. The average was 81.35 with a standard deviation of 17.51. The break down in the grades is in the table. The results on this were much better than I expected. I gave a very compilable test last year (if anything a little easier) and the results were not nearly this good.

Grade	Range	Number	Percent
A	90–100	20	39.22%
B	80–89	13	25.49%
C	70–79	8	15.69%
D	60–69	5	9.80%
F	0-59	5	9.80 %

Thus most of you should be proud of the job you are doing. On the next exam I will make a point of having one or two more challenging questions to give the people who have put in the extra effort a chance to show off.
