

# Syllabus for Mathematics 552, Spring 2006

INSTRUCTOR: Ralph Howard                      OFFICE: LC 304                      PHONE: 777-2913  
OFFICE HOURS: TTh 10:30–12:00 and by appointment  
TEXT: *E. B. John W. Dettman*: Applied Complex Variables.

**Grading:** There will be three hour exams of 100 points each. Homework will be collected and will count for 150 points. The Final will count for 150 points. There will be an 30 points for in class presentation of homework problems. This makes a total of 630 points:

Three midterms @100 points each	300 points
Final	150 points
Homework (includes quizzes)	150 points
Total	600 point

The grade will be based on the total number of points out of the 600 points. Note that the homework counts as much as the final so it is important to spend time on the homework. Some homework may be “collected” in the form of in class quizzes. Other parts of the homework may be in the form of longer projects where you will work in small groups outside of class. Letter grades will be assigned to all the tests. The last day to drop without a “WF” is Monday February 20 and you should have a good idea of where you stand by then.

**There will be no make up exams.** If you miss a test, then your score on that exam is 75% of the average of your other test scores (including the final). If you miss a second exam then the score on it is zero. Likewise **no late homework will be accepted.**

The exams will be on the following days:

Test 1	Wednesday, February 15
Test 2	Monday, March 20
Test 3	Monday, April 17
Final	Thursday, April 27 – 2:00p.m.
