George F. McNulty  
Noble Prize Committee  
Royal Society of Sweden  
Stockholm, Sweden

Dear George,

This is the body of the letter. It can contain both text (like this) and mathematics. The mathematics can be in-line  $x^2 + y^2 = z^2$  or displayed

$$\frac{\partial u}{\partial t} = \Delta u + f(u).$$

You can even put a theorem-like environment in the letter.

**Lemma 1.** *The letter style will be used by many members of the Department.*

This should be enough to demonstrate that (essentially) anything can be put in the body of a letter.

Sincerely,  
George McNulty

Sincerely,

George McNulty  
Professor
