

**WebAssign Instructions**  
**Math 142 Section 300**  
**Spring 2011**

- (1) Go to <https://www.webassign.net/v4cgi/selfenroll/classkey.html>
- (2) Enter the **Class Code: sc 8676 2279**
- (3) Make sure my name is listed as the course instructor. If it is not, then you entered the class code incorrectly. Go back and try again.
- (4) If you have never used the system before, create a new account.
- (5) Use your university username and email to create an account. Do not enter your student id number.
- (6) Our institution code is **sc**.

**Notes:**

- You have until Monday, January 23, 2012 at 12:00 AM to enter a registration code.
- If you purchased a book from the University Bookstore, then your book came with a free WebAssign registration code.
- WebAssign comes with a **free e-book**. I do not require that you have a book for class. It is sufficient to have only the e-book for study and homework purposes. In other words, you only need to purchase a hard-copy of the textbook if you prefer to do so.
